

Below is a guide map for planning your New Hampshire health care career. Here you can see how jobs in different health fields are related and plan for future career steps across all of the New Hampshire health care sectors.

These jobs are categorized by the group headings. The color coding relates to what level of education is required for each position, beginning with a GED or high school diploma, all the way up to a Medical Degree.

The two search functions allow you to search this database:

- [Find Your Career](#) [1] is an individualized search designed specifically for students and HPOP participants, helping align skills and goals with ideal jobs.
- [Career Search by Title](#) [2] allows all users to search the database through broad search terms.
