

## Frequently Asked Questions for Parents and Families

### What does HPOP offer families and parents?

HPOP understands the real challenges preventing many students from completing the program and can offer multiple supportive services to help ease those pressures. These services include child care, financial aid and case management services to help ensure your child or family member is able to successfully complete the program.

### How can I help my children and foster children go to college?

HPOP can support your child receive training and education opportunities to launch a new and exciting career in the health and human services fields. These opportunities are provided through established education and training providers and institutions. Case Managers are available to help participants match individual interests and abilities with health occupations that are anticipated to have job openings. Financial support is available for educational expenses/tuition, and supportive services as determined by individual needs. The HPOP program is also making a special effort to help foster youth complete the program and transition into a new career.
